Forecast for Tuesday 27 Jun 2023

Weather: Some high cloud will affect the southwest at first but clear spells elsewhere. Cloud will spread northeast through the early hours, with rain reaching the southwest by morning. The rain will spread to all parts by mid-late morning, turning heavier into the afternoon. By evening the rain will mostly have turned lighter or drizzly, with some drier interludes by midnight.

Chance of cloud-free hill tops above 800m: 90% at first, decreasing from the southwest to 30% by midday. 70% by late evening.

Low Cloud and visibility: Broken low cloud in association with the rain, base 500 - 700m, becoming more widespread into the afternoon, becoming scattered by late evening. Visibility good at first, reducing to moderate in rain.
